

Summer School Students Workshop 2019

A Mathematics and Science workshop for high school students

The Institute of Mathematical Sciences

14th May – 22nd May 2019

10:00 – 17:00

This tiling is made up of tiles of this *same* quadrilateral such that the neighbourhood of each tile is *identical*. Can you find another quadrilateral that can fill the plane with identical neighbourhoods?

The program is for students *going into* class 10th.

Teacher volunteer applications are also invited.

For application details and updates visit:

<https://www.imsc.res.in/outreach/SSSW2019/>

Application deadline: **9th May**

Selection notification: 10th May

The program is free. Lunch and snacks will be provided.

IMSc is unable to provide any assistance towards travel/accommodation.
